

PartFit Web

Your scalable solution for precise fitment data and more sales!

PartFit Web

Your scalable solution for precise fitment data and more sales!

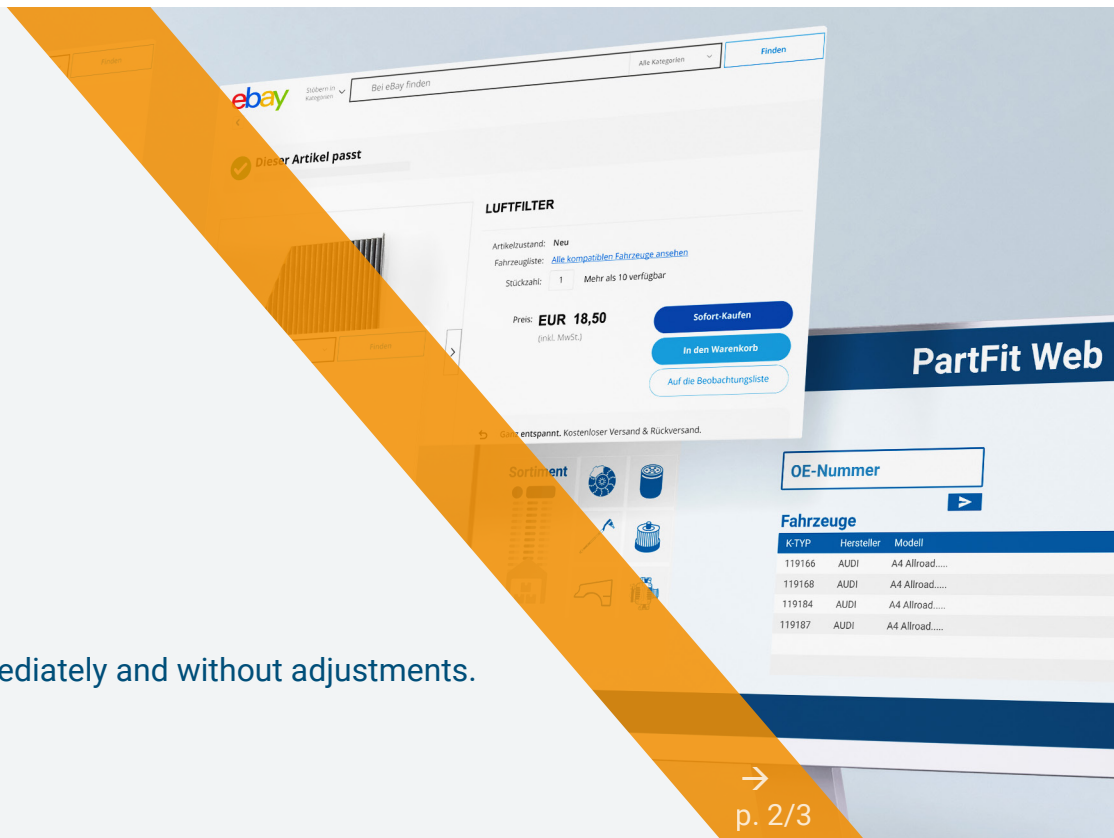

From the OE part number to the complete vehicle application list - at the touch of a button!

The challenges in OE e-commerce: Missing or incorrect fitment data leads to lost sales, incorrect allocations and returns as well as high time expenditure due to manual data maintenance.

The solution? PartFit Web! Rely on an automated and scalable process for fitment data generation. Result: A complete list of all suitable K-types (incl. fitting criteria) - ready to use for your eBay upload!

Your advantages with PartFit Web:

- 1. Automated fitment creation**
Minimised manual processing: faster, precise vehicle assignments.
- 2. Complete Fitments**
More visibility, more sales potential and lower risk of returns.
- 3. Plug-and-play for eBay**
Export the data in the perfect format for the eBay Seller Cockpit.
- 4. Minimising errors**
High-quality data avoids incorrect orders and unnecessary returns.
- 5. Easy to use**
No prior technical knowledge required. The data is ready for use immediately and without adjustments.

PartFit Web

Your scalable solution for precise fitment data and more sales!

From the OE part number to the complete vehicle application list - at the touch of a button!

Perfect for:

- **Dealers**, who offer vehicle parts on eBay and rely on a complete and precise vehicle usage list..
- **Part manufacturers**, who want to equip their products with precise vehicle usage lists and optimise their market presence on eBay.
- **Brand representatives**, who want to make their brand more visible with exact vehicle allocations, reduce returns and increase customer confidence.

PartFit Web – Your key to more visibility and fewer returns on eBay!

It's as simple as that:

1. Enter OE part number & eBay offer number.
2. PartFit Web automatically generates the complete vehicle usage list.
3. Download export file & upload directly to the eBay Seller Cockpit.

The result: precise fits, optimum visibility and fewer returns!
